Comment. The information indicates no change in the occupation of the Kattner Settlement, the daeger Kaserne and the former provincial government building in Eisenstadt over the last report of 13 July 1951 by the same source. See

another unit of the 95th Gds litz Nifle Div which left Eisenstadt for the Doellersheim troop training grounds. The departure of a previous proop train was observed on 16 July. See the state of the three GP guns were probably models SU 76s, six of which are believed to be really assigned to a meterized rifle regiment of a meterized rifle civision. Goment. Further information is required as to whether the 19 13th Gds Necz Div, which is confirmed by the roport until 22 July had, has been reassigned from Vienna to another post. An article in the new or Salzburger Nachrichten of 25 July 1951 stated that houses would be new simplement in Modeling allegedly because of a transfer of Soviet occupation personnel from Baden to Modeling. It is possible that the transfer of the 19 13th Gds Necz Div may have been coincident with this movement.
